

Group of cultivating and seeding sets PLUS is based on idea of joining cultivator's built-on construction with seeder with mechanical seeding system. Thanks to compact build and small own weight PLUS 400 set can work with tractors with min. power demand of 70 HP. Cultivating part consists of light cultivator equipped with two cultivating rollers and two rows of springs. Seeder with foot coulters is built on the cultivator. Rich equipment including hydraulic markers, pre-rising technological paths make this set very attractive for farms owning tractors with lower power, which may have problems with attaching sets equipped with hydropac to them.

Standard equipment:

- Front string roller
- Cultivators two rows of tines
- Rear packer roller
- Foot coulters
- Hydraulic marker triggers
- Pneumatic technological paths
- Pre-rising technological paths
- Loading platform
- Stepless transmission box
- Levelling fingers

Technical specification:

TYPE	PLUS 400
Working width [m]	3,0
Power demand [HP]	70
Capacity of seed-box [dm ³]	400
Mass [kg]	1200
Price [EUR]	9 600

Group of cultivating and seeding sets PLUS is complemented by PLUS 700 series. Because of bigger loading hopper (700 litres) and option of using foot coulters or disc coulters, PLUS 700 series is addressed to wide range of customers. Seeder can be built on passive cultivator – should be used on light and medium-firm soil or on active cultivator – should be used in difficult soil conditions.

Standard equipment:

PLUS 700

- Front string crushing roller
- Cultivator's three rows of tines
- Rear packer roller
- Foot coulters (PLUS 700)
- Disc coulters (PLUS 700 D)
- Hydraulic marker trigger
- Mechanical technological paths closing
- Loading platform

PLUS 700 ACTIVE

- Active harrow
- Rear packer roller
- Front and rear drag
- Lifiable side shields
- Driveshaft with overload coupler
- Foot coulters (PLUS 700 ACTIVE)
- Disc coulters (PLUS 700 ACTIVE D)
- Hydraulic side marker trigger
- Mechanic technological paths closing
- Loading platform

Technical specification:

TYPE	PLUS 700	PLUS 700 D	PLUS 700 ACTIVE	PLUS 700 ACTIVE D
Working width [m]	3,0	3,0	3,0	3,0
